

# ARIES FAMILY OF PRODUCTS

## Portable Inspection Systems

### Seeker

Our solution for a compact, battery operated pipeline inspection system that's easy to operate when it's important to get in and out fast.

### GasCam System

Provides safe inspection of live, low pressure gas lines through standard 1-1/4" taps.

### Transporter

ARIES TR2000 is the solution for long distance inspection of 6 inch thru 30 inch diameter pipelines. It is engineered to perform with the power and traction that ARIES customers have come to expect.

### Township

Our most popular system. Ideal for 6" - 200" lines.
